One hundred and fifty barrels of naval stores were unloaded yesterday from the schooner Magnolia, which arrived Friday from Boggy Bayou.

The American schooners Sawyer Brothers and Robert Snyder went down to the navy yard yesterday, preparatory to leaving for sea.

Record Coffee Cargo.
The Afghan Prince, owned by the Prince Line of Newcastle-on-Tyne, is now on her way to New York with the largest cargo of coffee ever shipped to this port. The schooner left Santos Jan. 7, after having loaded 96,000 bags, and calling at Rio de Janeiro loaded 30,000 bags, making a total of 126,000 bags. After leaving the latter port, Jan. 12, she proceeded to Bahia, where she took on board cocoa, hides, rubber, etc., leaving that port Jan. 17 direct for New York. The Afghan Prince carries over 16,000 tons, and is one of the finest steamers of the Prince Line. This steamer, together with her sister ship, the Welsh Prince, was chartered by the Russian government about two years ago to carry troops from Vladivostok to Odessa at the close of the Russo-Japanese war. She carried over 3,000 officers and men, and in appreciation of the manner in which this was accomplished, the Czar presented Capt. Campbell with a gold watch and chain. Messrs. Paul F. Gerhard & Co. are Prince Line agents at this port for Brazil, River Plate and South African services.—New York Maritime Register.

Large Lumber Shipments.
Reports from North Carolina are to the effect that shipments of lumber, both by water and rail since the opening of the new year have been made with greater frequency and in larger quantities than in any similar length of time for over a year past. There is every reason to believe that the new year will be marked by unusual business activity. An idea of the manner in which lumbermen are receiving orders may be had from the report for one day's business at Charleston, S. C., port during the week of Jan. 15. Seven schooners, lumber laden, left that point for northern ports, carrying in all over 3,000,000 feet of lumber, all of which was loaded at Charleston. Five of these vessels sailed for New York, one for Boston and one for Philadelphia. This tends to show that demand of the Northern markets for lumber is increasing. The German steamer Eriphia cleared Wilmington for Colon with a cargo of 51,600 cross-ties, valued at \$21,265.—New York Maritime Register.

MRS. LAMAR WILL ERECT A SKY SCRAPER

HAS PURCHASED PROPERTY ADJOINING THAT OF HER OWN IN ATLANTA UPON WHICH SHE WILL ERECT A MODERN BUILDING.

Following from the Atlanta Constitution will be read with interest by the many Florida friends of Congresswoman and Mrs. W. B. Lamar.

Mrs. Ethel Toy Lamar is planning a sky-scraper to be erected at the corner of Peachtree and Decatur streets. This fact became known yesterday when it was learned that on Saturday through the real estate firms of Forrest & George Adair, and B. M. Grant & Co., she bought of J. W. Goldsmith the store now occupied by Govan, with a frontage of 21 feet on peachtree and running back a depth of 36 feet to the "Big Bonanza" property, which she already owns, and which has a frontage of 50 feet on Decatur street and runs back a distance of 100 feet.

For this little space not much larger than the average size dining room the top notch price of \$65,000 was paid.

\$85 a Square Foot.
Per square foot, like all land in New York city is sold, this is the highest price yet paid for central property in Atlanta, being a little over \$85 per square foot.

The highest price per front foot paid in Atlanta was \$85,000 for the Inman property at the corner of Peachtree and Walton with a frontage of 21 feet on Peachtree and running back 100 feet. But, estimating it per square foot, it is a little less than half as valuable, being sold at a little over \$40 a square foot.

With this purchase, Mrs. Lamar, the wife of Congressman W. B. Lamar, of Florida, owns all of the corner between the Kimball house entrance on Peachtree street, and the frontage on Decatur street, except the places occupied by Thomas H. Pitts and Schaaf & May.

Both of these stores are held by leases, and as soon as they are acquired the proposed building will be erected.

That the corner under consideration is one of the most popular in the city is beyond dispute. It is estimated that more people pass that point during the day than any other in Atlanta.

For a Large Sky-Scraper.
One who is associated with Mrs. Lamar in looking after her Atlanta property, to whom her desire to erect an office building on this corner is known said:

"Since coming into possession of her property in Atlanta, it has been known that Mrs. Lamar has had her eye on the Goldsmith property with the desire to acquire it, and add it to her Decatur street property in order that she may erect a large building on what is now considered the most prominent and probably the most valuable corner in the city of Atlanta."

"It is said that more people pass the Schaaf & May corner during the twenty-four hours of the day than any other one point in Atlanta."

"Mrs. Lamar is a woman of unusual business ability and has managed her estate so as to very greatly enhance its value and increase its rental income."

"There are now leases on the Peachtree and Decatur street property, and it is said that by the time these leases expire she will have perfected her plans for a new building."

"The size and design of the building, of course, depend upon the time when she can secure the rest of the corner. Judging from the prices paid for this property, it would seem that hardly less than a twenty-story building on this popular corner would prove a good investment."

Church Notes
